RELEVANT PROFESSIONAL EXPERIENCE

Software Developer Intern
THE JITU

03/03/2023 - Present
Nyeri, Kenya

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Frontend Developer Support
HYPER-TECH COLLEGE

- Dates
Nanyuki, Kenya

- Supported students using HTML, CSS, Flexbox, JavaScript and React best practices
- Utilized debugging best practices using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests Projects

PROJECTS

Maasai Village

PERSONAL ECOMMERCE PROJECT

Description

[Live Project URL](#)

The Maasai Artifact Ecommerce Website is a React-based application that offers a platform for selling a wide range of authentic Maasai artifacts. From traditional spears and shields to jewelry and clothing, this website allows users to explore and purchase Maasai cultural items. The user interface is designed to provide an immersive experience and showcase the rich heritage of the Maasai people.

TECH USED: *React, HTML 5, JavaScript, CSS*

Watch Ecommerce

PERSONAL PROJECT

Description

[Live Project URL](#)

A frontend website for a client called "SLS Concrete Coatings" with an attractive design. This project was built to highlight their services and help establish their brand. The client was exceptionally impressed with the results this project has brought.

TECH USED: *HTML, JavaScript, CSS*

Police Case Docket System

PERSONAL PROJECT

Description

[Live Project URL](#)

A digital platform to help manage and organize police cases. Built it using React, JavaScript, CSS and react-form-hooks using YUP and Node.js for the backend. This project utilizes SQL database I created. Additionally, the project is hosted on Microsoft Azure.

TECH USED: *HTML 5, Express, React, Node*
